Worksheet 5: Monitoring in action and presentations

31.05.2011, Garching

Due 07.06.2011

1 Monitor test (lab task)

Apply the snort rules that we give you within your virtual machine. Run the virtual machine on your honeypot host. Observe which rules get triggered and write down what happened.

2 Presentations

The selected groups will give their presentations (cf. last sheet).

3 Honeypot setup (homework)

Continue setting up your honeypot as it needs to be ready in two weeks.
