Worksheet 6: Setup presentations ctd.

07.06.2011, Garching

Due 14.06.2011

1 Presentations ctd. (lab task)

The remaining presentations will be given in this session.

2 Getting ready (homework)

Make everything ready for next week, including all services to be offered on your honeypot.

3 Prepare malware for our next session (homework)

Find malware that exploits weaknesses in your honeypot. Perform your search using a patched virtual machine on your honeynet host and do not execute the malware before the next session.
