Worksheet 2: Firewall Policy
24.04.2012, Garching

1 Honeypot Installation and Configuration

Continue installing and configuring your honeypot. Also, be aware of the logging infrastructure you have available.

2 Firewall Policy (graded)

Write down a possible policy for a firewall used in a honeynet. Especially consider legal liabilities for damage done to systems outside the honeynet. Hand in your proposal by the beginning of the next session.
