Worksheet 13: Presentations

02.02.2010, Garching

Due 09.02.2010

1 Presentation Guidelines

As you all know, your presentations are to be done next week. We will have a double session that will last from 14:00 to 18:00 to allow us enough time. Each group will be asked to give a 20 minute presentation with slides that address the following points:

- A brief summary of your honeypot, its services, and vulnerabilities.
- What attacks did you expect to see?
  - Did you see the attacks that you expected to see?
  - Why do you think this is?
- What sort of activity did you see?
  - Where did it originate?
  - How often did you see individual activity?
  - Did you have the feeling it was automated? Why?
  - etc.
- What would you do differently the next time around?
- What could we (Daniel and I) do differently to improve this experience?
